Principles

- The photo carries the post: real photos, not graphic decoration.
- One typeface, one green, plenty of white space.
- Short, factual sentences. No marketing phrases.
- No emojis as icons, no glow gradients, no ornaments.
- The STUPAnda brings the personality, not effects.

pretix banners

- Header: photo plus green box with the event name, so it matches the post.
- No price in the image, the shop shows it. Date only for single events, not for shops with several dates.
- Shop colours: primary #52635D, background #292A30. Ski: #4C6176 and #2F3B47.
- Don't repeat in the shop text what pretix already shows (date, place, spots left).

Before posting

- Date, time and place match the shop and the event calendar.
- Link in bio and link sticker are set.
- Photo credit is in place.
- Website tile and event calendar are updated.
